

3C Chow Yuet Sum

### **At the Shopping Centre**

It is Saturday. May and Alex want to buy a present because today is David's birthday. They go to Fun Toy Shop.

May asks, 'How much is a toy car?' 'It is fifty-five dollars,' says the shopkeeper. 'Oh no! We only have fifty dollars. We can't buy the toy car,' says Alex.

'Maybe I can give you a discount. You can only pay fifty dollars,' says the shopkeeper. 'Thank you!' say Alex and May. They feel excited.
