What an unforgettable day!

8th March,2019 (Friday)

Foggy

Today was Outdoor Learning Day. I went to The Peak with my classmates and teachers. We went there by coach. We were very excited.

First, we went on the Peak tram. We waited for a while at the station in Central. When we went on the tram, I was curious because it was my first time riding on the Peak tram. I thought I was riding the roller coaster because it was as fast as a racing car. I screamed at once. When we arrived at the Peak Tower, I went to Burger King with my teammate Anson. Although the food there was scrumptious, it was expensive and we waited for one hour! We were very impatient.

After that, we interviewed the tourists outside the Peak Tower. The weather was bad. There was a strong wind and it rained. Our clothes were all wet so we were embarrassed.

After thirty minutes, we finally found a tourist. The tourist we interviewed called Ejnge Maier. She is from Germany. She has already been to some famous attractions in Hong Kong. When we finished our interview, we took some photos with her. She thought we were very brave because we interviewed the tourists. We felt very happy.

Next, we went to a place called 3D Adventure. We took some lively photos there and it was amazing. All the pictures were the special features of Hong Kong.

Finally, we bought some souvenirs. The souvenirs were beautiful but expensive. I didn't have enough money so I didn't buy anything. Finally we went back to school by coach.

We all felt delighted during Outdoor Learning Day. Also, we learnt a lot of English because we spoke to the foreigners bravely. I hope my school can hold more meaningful activities to improve our English.
