My Dream job

What is my dream job? My dream job is to be a teacher. Why do I want to be a teacher? Do you want to know? Let me tell you.

I want to be a teacher when I grow up because I think it is a meaningful job and I want to change students' bad attitudes to good attitudes. Also I want to teach students to have good values in order to make the world better. The most important thing is that I love children.

To be a teacher, I need to be hard-working because I need to work even after school and at weekends. I also need to be smart and creative because I need to think how to teach students in an interesting way. I need to be caring and patient too because it takes time to teach naughty students.

If I become a teacher, I will teach the students and mark their exercise books at school. I will talk to the students and their parents too. I will prepare for the lessons at home. Sometimes I will bring the students to study tours so I need to work in other countries.

I need to study hard so I will be a teacher when I grow up.
