#### An Unforgettable Joint School Trip to New Zealand

---

I participated in a joint school trip to New Zealand in January this year, just before the Covid-19 pandemic spread worldwide.

The trip was very memorable and fruitful, with the teachers and tour guides taking care of us all the way. I saw a lot of beautiful sceneries, animals and plants. The volcanic activities were astonishing. The Kiwi Birds and Llamas were so adorable. I also tasted many delicious food, fruits and snacks. Fresh Kiwi fruit from the farm were sweet and juicy. The honey ice-cream was so special. I encountered plenty of challenging adventures and new experiences. I also tried Skyline Luge going downhill, it was super exciting. Moreover, I learned a lot about different culture, landscape and conservation in New Zealand.

There were many joyful and unforgettable moments. The most impressive one would be exploring the glow worms in the forest at night. They glowed like the stars twinkling in the galaxy, so pretty and amazing.
